SPARK YOUR PASSION.

VACATION PROGRAM

Our Vacation Program is designed to spark passion in our future generation of engineers. The program runs twice a year throughout the summer and winter vacation breaks, giving students an invaluable opportunity to experience what it's really like working within an award-winning engineering design consultancy.

As a Vacation Student, you will enjoy an introduction to life at Peritas, learn how we operate and be given full support whilst working on challenging real-life projects. You'll have the opportunity to rotate through our structural and civil engineering divisions, which will help you discover your preferences for technical discipline specialisation. Most importantly, you'll have the benefit of working alongside our passionate and inspirational engineers, who can help guide your career choices. Upon completion, you'll have the opportunity to participate in our mentoring program throughout the remaining duration of your studies.

SHAPE YOUR FUTURE.

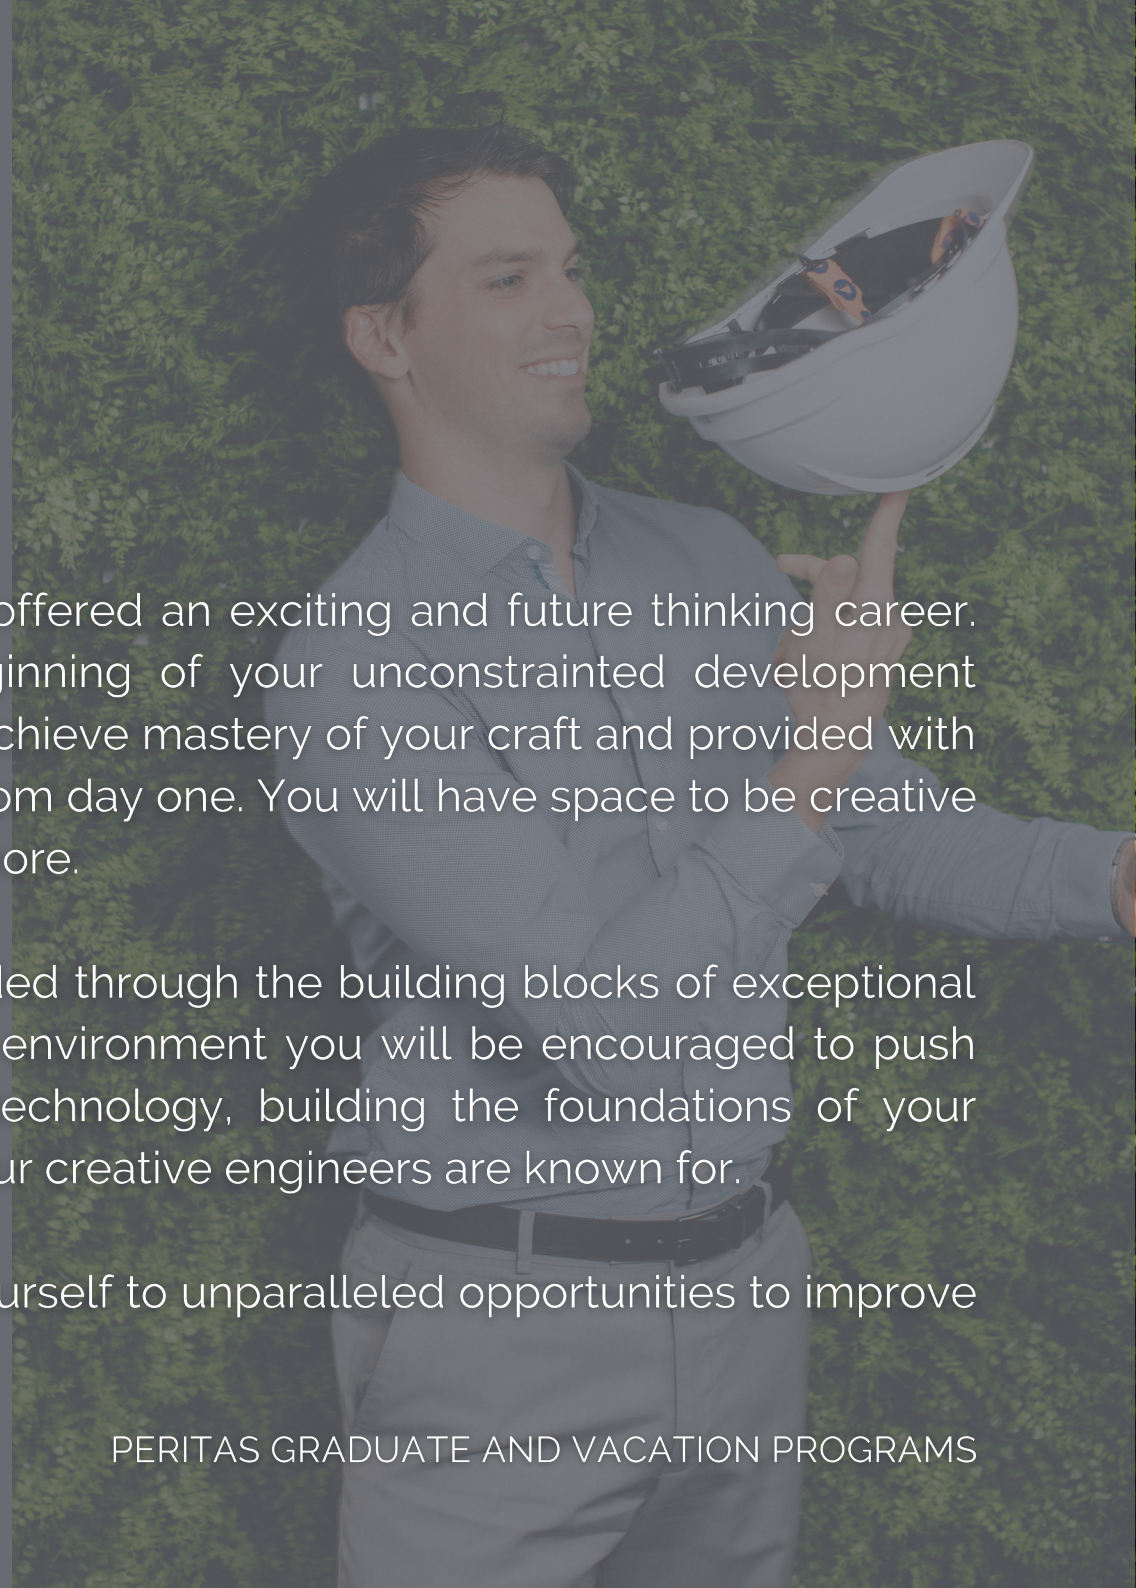

GRADUATE PROGRAM

As a Graduate Engineer at Peritas, you are offered an exciting and future thinking career. Our Graduate Program serves as the beginning of your unconstrained development journey with us. You will be encouraged to achieve mastery of your craft and provided with opportunities to carry out purposeful work from day one. You will have space to be creative and inspired in everything engineering and more.

Over the two-year program, you will be guided through the building blocks of exceptional engineering. Within a supportive, close-knit environment you will be encouraged to push your own limits whilst utilising the latest technology, building the foundations of your technical knowledge and people skills that our creative engineers are known for.

Kick-start your career at Peritas and open yourself to unparalleled opportunities to improve our world.

PERITAS GRADUATE AND VACATION PROGRAMS

LEADERS OF TOMORROW.
